PROJECT NAME	Title - Gas leakage monitoring and alerting system
MAXIMUM MARKS	4 Marks

Brainstorm & Idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare
1 hour to collaborate
2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

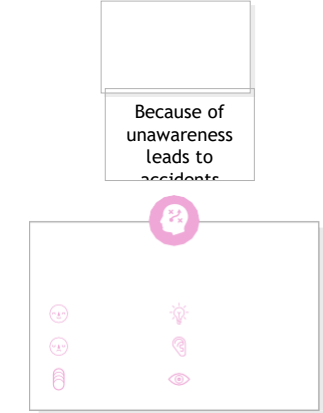

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

Harunyaa P

To detect the Gas Leakage

Alert the people by the sound

People can afford in a minimal cost.

Provides real time Monitoring

Brindha M

Because of unawareness leads to accidents

Provide security to lives of human

No need of frequent Checking.

It is useful for industrial person.

Brindha M

We use the LED and Buzzer to indicate the Leakage

For human detection, PIR sensor are used

It prevents the people prior before the major issues.

We can turn off the valve automatically
